

# APPALACHIAN HEADWATERS

FORESTS WATER COMMUNITIES

# PHENOLOGY WALK

Come along and explore spring time phenology at our local Greenbrier county facility, Headwaters Park! Phenology is the study of natural cycles in our environment, such as flowers blooming and birds hatching. This tour will follow a well-established walking path through our park, however, we recommend wearing proper shoes for a hike. There is minimal elevation gain, but a lot to gain intellectually about nature and our home.

## ALL are welcomed!

- ✓ Guided tour of Headwaters Park
- ✓ Learn how to identify spring blooming species
- ✓ Contribute to scientific research

## HEADWATERS PARK

334 Richland Ln,  
Lewisburg, WV, 24901  
Saturday, April 9, 2022  
1:00 pm - 3:00 pm
